MANIPAL UNIVERSITY
THIRD SEMESTER M. ARCH. (URBAN DESIGN & DEVELOPMENT)
DEGREE EXAMINATION – NOVEMBER 2017

SUBJECT: ARM 727 – ADVANCED URBAN TRANSPORTATION PLANNING & DESIGN (ELECTIVE - II)

Monday, November 13, 2017

Time: 10:00 – 13:00 Hrs.

Max. Marks: 50

✍ Answer any FIVE full questions.

✍ The answers should be supported with examples and sketches wherever necessary.

1. Elaborate any five types of survey carried out in transportation planning and design process with their utility.

(2 marks × 5 = 10 marks)

2. Elaborate on importance of cycle tracks in present situation. What are the basic design considerations for cycle tracks in urban road?

(5 marks × 2 = 10 marks)

3. Explain the purpose and objectives of Land Acquisition Act and elaborate on characteristics of this Act enacted in 1894, 1984 and 2013 respectively.

(10 marks)

4. **Elaborate the following:**

- 4A. User Characteristics for Pedestrian Infrastructure
4B. Interdependence of Urban Form and Transport system

(5+5 = 10 marks)

5. **Write short notes on the following:**

- 5A. Bus Rapid Transit System and Mono Rail
5B. Bus Priority Techniques
5C. Accessibility and Mobility

(4+4+2 = 10 marks)

- 6A. Differentiate between Road Signs and Road Markings with the help of examples.

- 6B. Elaborate on different types of Road Signs with examples.

(4+6 = 10 marks)
